

Ikutilah: The 5 South East Asia Development Reserach – Universitas Lambung Mangkurat

INTRODUCTION

The rapid advancement of science, technology and information demands the readiness of human resources who are excellent in all fields. Globalization should inevitably be faced by preparing high competitive and creative young generation to win the competition. In facing this challenge the world of education is trying to improve the quality of teaching and learning in schools through research and publication of research results in the area of innovative teaching and learning. South East Asia Development Research as a forum of communication design/development research in collaboration with the Department of Mathematics and Science Education FKIP Ulsen addressing this effort by implementing a fifth international seminar with the theme "Developing Competitiveness through Innovation and Creativity Teaching and Learning"
